Quality Assurance

Product quality is a key priority for Missionpharma and we guarantee the supply of safe and effective products at all times.

Having an efficient QA system enables us to maintain a consistent level of quality as well as sufficient internal systems and procedures to prevent any kind of quality problems.

We only work with prequalified manufacturers, whose performance is continuously evaluated and who are also subject to periodic inspections. All products released by the manufacturers also go through our own internal Quality Control procedures before reaching the customer.

Storage capacity

With a storage capacity of 12,000 m² Missionpharma is able to stock large quantities of pharmaceuticals and medical devices for immediate deliveries.

Our GDP-approved warehouse facilities provide sufficient capacity to enable storage of all categories of products in conditions which ensure product quality is maintained.

Logistics

We have logistics specialists, who always offer their extensive knowledge, expertise and advice on the optimum solution for each delivery.

We have implemented an advanced bar code system, which facilitates complete batch tracking and warehouse management. In addition, it ensures a fast, efficient and reliable pick and pack and minimises the risk of errors.

Medical kits

Missionpharma is the world's largest supplier of medical kits with more than 30 years of experience.

During the past 5 years, we have distributed more than 600.000 medical kits worldwide. Naturally, we possess a profound expertise and experience in product sourcing, product combinations, kit packing optimisation as well as facilitation of in-country distribution.

We easily manage complex and large-volume kit projects at one of our kit packing facilities in Denmark or India.

We are always pleased to assist you in designing just the right kit for your needs, and you are welcome to contact us for further information at any time.

How to order

Please contact one of our country managers, who will make sure that your inquiries are handled immediately. To ensure your order is processed fast and efficiently, please refer to the code numbers in the product list.

HIV/AIDS, Tuberculosis and Malaria

Product list

2007

HIV/AIDS, TB and Malaria

Missionpharma has actively supported countries in their fight against HIV/AIDS, TB and malaria for years by committing ourselves to making effective and affordable HIV/AIDS, TB and malaria products available to economically disadvantaged populations.

Our range of products includes a wide range of pharmaceuticals and medical devices related to the prevention, detection, treatment and monitoring of the three diseases.

We are continuously committed to promoting products and solutions that are more adaptive to economically disadvantaged populations and we closely monitor national and international initiatives launched to fight HIV/AIDS, TB and malaria.

Supply Management Services

Missionpharma's activities go far beyond supplying essential pharmaceutical products. More than 30 years of broad experience and established know-how allow us to provide complete solutions to our customers.

Some of the services we offer to our customers are:

- Procurement assistance
- Inventory management
- Local capacity building
- Preparation of orders
- Consolidation of orders
- Bundling of products
- Kit packing
- Product and carton marking
- Custom clearance
- Sampling and re-testing
- Buffer stock

We facilitate a fully integrated Supply Chain Management system, which provides us full control over all stages of the supply process.

Prequalification of manufacturers

All products supplied by Missionpharma come from prequalified manufacturers. In addition to supplying products from WHO prequalified manufacturers, we run our own comprehensive prequalification system.

This prequalification system is managed by our QA/QC team and ensures that only manufacturers meeting stipulated standards are considered as potential suppliers. To ensure that standards are maintained, we continuously evaluate all manufacturers and carry out periodic inspections.

Personal commitment

We are committed to keeping our position as the world's leading supplier of generic health products. With this comes the responsibility to be constantly aware of the development within our field.

Our solutions are always backed by commitment and personal attention to all customer needs. We see it as one of our prime objectives to meet your requirements at any time.
