Missionpharma

HEALTH PRODUCTS

GLOBAL SETUP

TOTAL SOLUTIONS

With more than 35 years of experience, Missionpharma has become the leading supplier of generic medicines and medical devices to developing countries worldwide.

Our main objective is to ensure customers a consistent product quality while at the same time offering flexible and innovative solutions at affordable prices.

We have established an enviable track record with governments, NGOs and international organisations and are widely recognised as a preferred supplier, partner and advisor.

Our committed and service-oriented global organisation has an in-depth understanding of the business environment within our field.

- EXTENSIVE EXPERIENCE
- QUALITY-ASSURED PRODUCTS
- COMPLETE SUPPLY CHAIN SOLUTIONS
- SECURITY IN DELIVERIES
- FLEXIBLE PARTNER AND ADVISOR

ONE PARTNER • ONE RESPONSIBLE • ONE CONTACT

Some of our services are:

- PROCUREMENT ASSISTANCE
- CONSOLIDATION OF ORDERS
- CUSTOM CLEARANCE MANAGEMENT
- WEB-BASED ORDER MANAGEMENT SYSTEM (TRACK & TRACE)
- COMPREHENSIVE REPORTING
- CUSTOMISED LABELLING
- LOCAL KIT PACKING AND WAREHOUSING
- LOCAL CAPACITY BUILDING
- IN-COUNTRY DISTRIBUTION
- PRODUCT SAMPLING AND RE-TESTING

HEALTH PRODUCTS

Our main product groups are:

- Generic pharmaceuticals
- Medical devices and equipment
- Medical kits

Missionpharma guarantees the supply of safe and effective products by working exclusively with prequalified manufacturers.

We are a world leading specialist in the development and delivery of medical kits containing pharmaceuticals and medical devices. The kits are designed and packed for easy treatment on-site - also in challenging environments.

Missionpharma actively supports countries in their fight against HIV/AIDS, Malaria and Tuberculosis. Our range of products includes pharmaceuticals and medical devices related to prevention, detection, treatment and monitoring of the three diseases.

TOTAL SOLUTIONS

Missionpharma is positioned as one of the global leaders when it comes to solving complex projects.

Our approach is based on understanding the needs of all parties. We provide unique and innovative solutions to our customers and have specialised in adjusting our activities to the specific market requirements.

Due to the complexity and diversity of conditions in each country, Missionpharma has developed a complete range of flexible supply services.

Our customers can always pick and choose the services best adapted to the actual needs in the country.

To further ensure a high quality level in all our activities Missionpharma holds GDP and ISO certificates.

GLOBAL SETUP

In order to offer our customers continuously improved delivery conditions and be able to comply with market requirements, Missionpharma has established a global setup which comprises facilities in Denmark, India, China and Africa, offering the following advantages:

- Full flexibility
- Increased warehouse and packing facilities
- Faster delivery time
- Cost-efficient transportation of goods

All our facilities are a fully integrated part of the Missionpharma Group and are all subject to our comprehensive Quality Management System. This ensures a uniform quality in all our activities.
